PENNSYLVANIA COMPENSATION RATING BUREAU

Table I – Summary of Financial Call Data

Table I presents premium and loss data which forms the basis for calculating development factors and projecting ratios of actual losses to expected losses by policy year. Losses are shown on a paid and case incurred (paid plus outstanding, excluding bulk and IBNR) basis split between indemnity and medical.

The data represents a summary of accumulated policy year experience as reported by carriers in the annual Financial Calls for Experience.

Two sets of development factors are shown measuring the development from December 31, 2020 to December 31, 2021 and also from December 31, 2021 to December 31, 2022. So as to maximize the use of available data, the companies used in one stage of development are allowed to be independent of those used in the other stage of development; therefore, the figures shown for the December 31, 2021 valuations may vary.

Experience for large deductible policies has been excluded from Table I. Losses attributable to catastrophe code 48 and COVID-19 have been excluded.

Table I - Pages 1-6 - Reported Data

The data on Pages 1-6 represent the experience as reported by the carriers.

Consequently, the 12/31/20, 12/31/21 and 12/31/22 valuations of losses reflect the impact of changes legislated by Act 44 of 1993, Act 57 of 1996, HB 1846 of 2014 and HB 1840 of 2017 as well as the Pennsylvania Supreme Court decision in *Protz v. WCAB (Derry Area School District)* (*Protz*).

Table I - Pages 7-32 – Adjustments to reflect the impact of legislation and Protz on indemnity losses

In order for the loss development patterns suggested by the financial data to be usable, it is necessary that the indemnity payments and indemnity case reserves be put on a consistent basis with regard to benefit levels. All indemnity payments and reserves are adjusted to a post-HB 1840 basis.

Pages 7-32 show the adjustment factors to bring indemnity losses to a post-HB 1840 level for Calendar Years 2010 through 2022, respectively.

Pages 7 and 8 show the adjustments to Calendar Year 2010 indemnity losses. Successive pages (through Page 32) adjust later calendar year contributions to a post-HB 1840 basis.

Table I - Pages 33-58 – Adjustments to reflect the impact of legislation on medical losses

In order for the loss development patterns suggested by the financial data to be usable, it is necessary that the medical payments and medical case reserves be put on a consistent basis with regard to benefit levels. All medical payments and reserves are adjusted to a post-HB 1846 basis.

Pages 33-58 show the adjustment factors to bring medical losses to a post-HB 1846 level for Calendar Years 2010 through 2022, respectively.

Pages 33 and 34 show the adjustments to Calendar Year 2010 medical losses. Successive pages (through Page 58) adjust later calendar year contributions to a post-HB 1846 basis.

Table I - Pages 59-64 - Adjusted to post-HB 1840 and HB 1846 basis

Pages 59-64 reflect the adjustment to medical costs to bring all data to a post-HB 1846 level and the adjustment to indemnity costs to bring all data to a post-HB 1840 level.
